Sun. 17th of May:

07:30 Departure to Grossraming, Eisenstrasse 66

10:00 Floating with a wooden raft (2 hours) <http://www.floss.at/>

12:00 End. Departure to Vienna

Program

Like before, we would like to have a “real workshop” – meaning enough time for discussions, finding common case studies, defining common research questions, comparing results across Europe and so on. There will be no tight time schedule!

Introduction

Hans Reschreiter and Michael Grabner: 35 min

The prehistoric salt mine of Hallstatt and the excavated timber

Felling and Transport

Sebastian Nemestothy, Michael Grabner, Markus Jeitler: 15 min

Time of felling, debarking and transportation – first results from Austria

Elisabeth Johann: 30 min

Transport from felling to rivers and floating at Oberdrautal, Austria

Oliver Nelle: 10 min

Wood supply of pile dwellings - analysis of potential wood catchment areas

Hans Reschreiter and Konrad Mayer: 25 min

Traces of transport at the Hallstatt mining timber

Sjoerd Van Daalen: 10 min

Can we estimate felling intervals for barrel staves without sapwood?

Jiri Woitsch: 10 min

Timber floating in Sumava/Boehmerwald with special focus to Schwarzenberg floating channel

Michael Grabner, Elisabeth Wächter, Sandra Karanitsch-Ackerl 25 min

Log drifting at the limestone Alps, Austria, and where the timber did go

Elisabeth Wächter and Michael Grabner: 10 min

The transportation marks at the Vienna castle roofs

Pascale Fraiture: 10 min

Decoding 'merchant marks' on imported timber in Brussels

Transport, trade, provenancing

- Thomas Eissing: 20 min
Local and imported timber as "fingerprints" of wood management in Bavarian towns from 12th to 19th century.
- Jiri Woitsch: 20 min
Timber transportation in Ceske Sycarsko/Boehmische Schweiz in the Early Modern period
- Rutile Pukiene: 15 min
Long and short distance timber transport during medieval - postmedieval times traced from archaeological constructions in Vilnius Lower Castle
- Erhard Pressler: 15 min
Trade relationship of wood between Scandinavia and Netherlands from late medieval times to the modern era
- Niels Bonde and Claudia Baitinger: 15 min
Old houses in Greenland
- Julia Weidemüller: 15 min
Dendroarchaeological investigations of early medieval wells in the Munich gravel plain and the lower Isar valley
- Daniela Moser: 10 min
The use of wood and forest resources during Roman times in Southern Italy
- Caroline Vermeeren: 10 min
New results of the wood management research
- Kirsti Hänninen: 5 min
(non)sense of looking at cutting season
- Silke Lange: 10 min
A prehistoric disc wheel from Olen (Belgium)

The staircase

- Hans Reschreiter and Michael Grabner: 30 min
The wooden staircase from Hallstatt
